Short Story..

There is a hungry boy.

He goes to the restaurant to
eat a bun

The boy saw a cat running
to catch a rat who took a bun
under the sun.

He started to run.

He met a clown in the funfair;
he had fun time.

MATH

sort by count

The objective:

* can sort and classify everyday objects by different attributes such as size, shape, color and count.

Description:

remind students that they have sorted by size and shape, tell them that another way to sort is to sort by count.

Show students two groups of five objects in the house. Then show three groups of four objects. Let the student to demonstrate sorting these groups based on the amount of objects they counted in each group.
